HTML5, CSS3, Javascript

PHP, MySQL

MongoDB, Express.js, React.js

Node.js

Java, Go

ABOUT ME

I am a passionate and driven graduate of BS Information Technology, with a strong focus on web and mobile technologies. My ultimate goal is to excel as a Software Engineer and contribute significantly to the ever-evolving tech industry.

MOST RECENT PROJECTS

○ March - June 2023
Hooli Software Development Services
Software Engineer Intern

During my internship, I had the opportunity to work on a company project alongside the exceptionally skilled Software Engineers at Hooli Software. This collaborative experience proved to be a valuable learning journey, particularly in enhancing my knowledge of the Go Programming language.

○ June 2022 - Feb 2023
Pangasinan State University
Lead Programmer

A web application to track close contacts of students and staff of Pangasinan State University. This web application is developed using the M.E.R.N Stack.

○ Dec 2022 - Feb 2023
Pangasinan State University
Lead Programmer

A web application to manage supplies requests, and stocks for Pangasinan State University. This Web Application is developed using HTML5, CSS3, JAVASCRIPT and PHP.
